## BRYAN'S WONDERFUL PRONOUNCEMENT.

Let the ministers read from their pulpits Bryan's great paper, setting forth, as it does, in amazing words of inspiration, the principles and practices of "The Prince of Peace," that would forever and all war.

Is this not a God-inspired pronouncement? Were ever so clearly set forth the ways that lead to war, and the ways that lead to peace? The ways of "you are wrong, you must yield"—"we are right, and will not yield"—and that other way of "come now and let us reason together."

Notwithstanding its smoothness of utterance, the velvet sheen of the sword, the President's note, means "You are wrong and must yield, we are right and will not yield," and that is the way of war.

That was the way of Austria and Serbia, and Germany and Russia, and the rest of them—their notes were as polite as ours. And they were all of them right—and their notes were the only right they knew, or cared about. The great right of the whole world was not theirs, but the small right that holds by might and not by love, the right that "seeketh its own." And these smaller "rights," seeking each its own, and only its own, meant the greatest of all wrongs—War, which, as Bryan writes, "is the best, is little better than the worst of the world."

The time comes when, "adding flesh to the flame of hate, they have daily devised new horrors until man is endeavoring to drown non-combatants, women and children, while the other seeks to starve non-combatants, women and children."

## Greek Statesman Promises To Enter War on Allies' Side

EX-PREMIER VENIZELIS

Greece was pledged to enter the war on the side of the allies at the time the Anglo-French naval attack on the Dardanelles began and was to have sent 50,000 veteran troops to co-operate with the French and British navy. The promise, which was made by Premier Venizelos, was not carried out because of the change of cabinet and his enforced resignation, which were the results of the king's refusal to agree to the program. The failure of ex-Premier Venizelos to carry through his program was largely responsible for the crisis in the British cabinet, which was precipitated by the resignation of Lord Fisher as first sea lord. Lord Fisher had opposed naval operations at the Dardanelles until a land force could be sent there to co-operate, but Winston Churchill held that the advantage of the Dardanelles would be sufficient.

## Official Views of World's War FRENCH

Paris, June 14.—The French war office this afternoon gave out a statement on the progress of hostilities which reads as follows:

"There is nothing of real importance to add to the announcement given out last night. Belgian troops threw a battalion over the east bank of the Yser, south of the railroad bridge, south of Dinant, and organized themselves on the ground thus gained. Also they destroyed a blockhouse of the enemy in the vicinity of the Chateau de Dixmude."

"In the north of the Ardennes yesterday saw the development of various infantry actions. At the end of the day one of these advances made us masters of a German work to the east of Lovetta. Another engagement resulted in our losing, after a violent bombardment, a portion of the trenches occupied by us during the afternoon at a point to the north of sugar refinery of Sochez."

Coroner John J. Phelan will appear before Judge Shumway in part two of the superior court tomorrow morning and report on the exhuming of the body of a woman alleged to be Margaret Fair, for whose disappearance John Devereaux and William F. Fair of Darien are being held in the county jail.

The hearing tomorrow will be a continuance of the habeas corpus proceedings brought last week by Attorney Henry E. Shannon, representing Devereaux. It is claimed that Devereaux has been detained in jail since May 15, although no charge has been entered against him and the state has not even established the fact that the body is that of Margaret Fair.

The body was found in the woods in Darien near her husband's farm. Devereaux, who worked on the farm, declares he knows nothing of the woman's disappearance. The coroner, so far, has refused to tell what the autopsy on the woman's body showed. The body was exhumed last week.

John Nolen and the members of the City Plan commission will meet in the congressman's rooms Wednesday evening to hold a conference. The bridge commission's action in going ahead with the plans for the Stratford avenue bridge without waiting for the report of the special committee to investigate, will probably be the main topic of discussion.

The emergency that has arisen by the sudden development of the property which the Bridgeport Armory works has located, all of which has been accomplished since the city plan commission made its report to the common council, will be talked over. The members of the commission didn't expect such a sudden development and made no provisions for it in their recommendations. It is probable some changes will be suggested for incorporation in the report.
